

## Projects of interest from our world of Precision Cut Film

### VODAFONE

The designers required a particular effect in this project so Jasmx worked with us in the early stages to ensure they would get the desired effect.

The result was a screen printed pattern on a clear film to the ground floor. The other areas utilised a simple dot pattern to give both style and comply with the safety regulations. To make glass visible by putting a vision band on.

#### THE PROJECT

Vodafone  
Fanshawe Street, Auckland

#### THE PROFESSIONALS

Jasmx Architects - Designers ph: 09 366 9626  
Alaska Interiors - Contractors ph: 09 375 0080

#### THE SOLUTION

Precision cut films  
Computer cutting & Installation by DeSign Tints
