

ART REQUIREMENTS FOR PRECISION CUT FILM

ACCEPTABLE ARTWORK

- In EPS “escaped postscript” file vectorised format.
- Also AI “adobe illustrator” format.

COMPATIBLE ARTWORK

The Following applications in PC compatible

- Adobe Illustrator CS (or less) – vectorised – ‘eps’ or ‘ai’ format.
 - Coral Draw 8 (or less) – vectorised – ‘eps’.
- Common applications that are unsupported are: Bitmap and jpeg

FILE SET UP

- File may be set up in any scale from 10% to 100% of the final computer cut size. Please confirm actual size as well as scale used. Artwork must be in correct proportion to the shape of the finished job
- A bleed of no less than 25mm must be provided on all artwork.
- Text must be converted to curves where possible or the font supplied with artwork.
- Any linked pictures or files must be supplied in digital artwork.
- Pantone colours must be supplied with artwork or a print out of the colours you would like. Due to a limited range of vinyl colours, a colour match will be as close as possible.
